TUNG-SOL

INTRODUCTION

These Technical Data Books have been compiled for the use of the Electronics industry. Inclusion of data for a specific tube type does not necessarily mean that the tube will be available and for sale by Tung-Sol.

The technical data sheets in these books are arranged in numerical alphabetical order, with respect to tube type designation. The Table of Contents on the following pages will, in all cases, list the sheets which have been issued to the current date. If any sheets, listed in the Table of Contents, are missing from your book, additional copies may be obtained from the address given below.

Additional sheets covering new tube types or changes on existing types will be issued on the first of each month. The Main Contents pages will be revised approximately every six months, the Supplemental Contents page will be revised with each monthly issue of sheets.

*TUNG-SOL ELECTRIC INC.
ELECTRON TUBE DIVISION
200 BLOOMFIELD AVENUE
ATTENTION: TECHNICAL DATA DEPT.*

Price \$20.00

Subscription Rate \$5.00 Per Year

ADDITIONAL BINDER

The Technical Data Books are being increased from three volumes to four volumes as the present three volumes are now filled to capacity. Subscribers who have all the pages in three volumes may order another binder, marked Volume IV, at any time. The cost of an additional binder is \$3.00.

TUNG-SOL

A separate Contents Page listing Cathode Ray Tubes is located at the beginning of the green section.

A separate Contents Page listing Military and Industrial Tubes will be located at the beginning of the Blue Section.
